VIEWS FROM AROUND THE WORLD

Mauritius Sotheby's International Realty | Chamarel, Mauritius | Price Upon Request | PropID: PXV9R9

MAURITIUS

"Referred to as the 'Pearl of the Indian Ocean' and renowned for its pristine beaches, lagoons and reefs, Mauritius has been a successfully colonized region by the Dutch, French and British until its independency was achieved in 1968. A tropical island with a myriad of sea and land produce, Mauritius showcases an encompassing urban life with contrasting beautiful mountainous interiors of rainforests, waterfalls, hiking trails and native fauna. Its 330 kilometer coastal line and in-land lifestyle make it a prime tourist destination and a heavenly island blessed with a multitude of cultural influences. Since 2004, the government opened up the island to foreign homebuyers with access to permanent residency, creating high demand for homes, giving rise to luxury residential developments. Access to golf estates, beachfront resorts, integrated villages and marinas make Mauritius an ideal market for the *Sotheby's International Realty* brand. We are truly excited about our investments here and our goal is to deliver exceptional customer service through our best in-class associates, whom reflect our prestigious brand position."

BLOCK ISLAND, RHODE ISLAND

"Our small island, located off the coast of Rhode Island, is now home to one of the newest *Sotheby's International Realty* brand affiliates. We are so excited and proud to represent the brand here in our unique market. Strategically located between Boston and New York's metropolitan markets, we offer a great vacation destination that is easily accessible by small aircraft and private or ferry boats. It is a place of natural beauty, only eleven-square-miles, but with over twenty miles of seashore, wind swept cliffs, estuaries, two idyllic lighthouses, classic New England and Victorian era structures, fresh air and star filled skies; needless to say, we make a lasting impression. We have even garnered the attention of The Nature Conservancy and have been designated as one of their 'Last Great Places.' It's a wonderful place to live, to vacation and to invest."

- Cindy Pappas, owner, **Sullivan Sotheby's International Realty**

FINLAND

"The country of the Northern Lights, with its dynamic design and technology influenced capital Helsinki, is currently one of the fastest growing metropolises in Europe. Expectations are that Helsinki will house an additional 250,000 inhabitants by the year 2050, and in response to this, new urban areas are being created and an additional subline is being opened toward the Western neighbor city of Espoo at the end of 2016. New development projects including both housing and hotels fill the central parts of Helsinki, as the nation prepares to celebrate its 100th anniversary in 2017. Being the 'World Design Capital' in 2012 and annual host of the globally popular tech talent fair Slush, among other events, Finland receives a constantly increasing amount of international attention. The air is clean, winters are

picturesque and the proximity to nature is present in many residential projects. The dynamic nature of Helsinki's urban development and a strong entrepreneurial drive on behalf of real estate developers motivated by the aspiration to leave a mark on the skyline, frosts for a dynamic and vibrant real estate market for years to come. With strong market knowledge and large potential for growth, Snellman Sotheby's International Realty was established in the fall of 2015. We are thrilled to join and drive the luxury real estate market, while opening new doors allowing more people to find their ideal home and workplace in Helsinki and the rest of Finland."
