BUYING PROCESS

Financials

- Know your credit scores, get them up if they are low.
- Have enough saved for a down payment & closing costs.

Pre-approval

- Speak to our preferred lenders to find out about different financing options.
- Get pre-approved for a mortgage (not a pre-qualification).
- Shop for the best interest rates, programs & lender credits.
- Your score can be pulled up to 5 times in a 30 day period and will only hit your credit score once. Most pre-approvals are good for a 90 day period.

Buyer Consultation

- This is where we will assess your needs.
- Location (downtown, urban, suburban, and rural).
- Type of Home (single family, townhouse, condo, and loft).
- Price range
- Create a Master must-haves list.

Research

- Visit potential towns & neighborhoods to tour the areas.
- Gather information on schools, crime rates, traffic and zoning - www.Niche.com is a great resource!
- Determine your work commute.
- Scout local amenities; parks, shops and restaurants.

Home Search

- Browse properties on my website.
- Receive listing alert emails to stay on top of the market.
- Drive by potential homes or take a look at the streetviews on google if you are not familiar with the area.
- Request showings with me, I will set up appointments to tour homes.
- Have the must-have list when touring properties, take notes!

Pre-Offer

- I will provide comps to estimate the property's fair market value, and to assist in deciding on a reasonable offer amount.
- I will gather as much information as possible. How motivated is the seller, have they gotten any offers, will there be multiple bids, etc.
- Review all property disclosures, floor plans, estimates of known issues if available.
- Hire a real estate attorney.

Making a Offer

- Determine the offer amount, initial desposit, additional desposit, & closing date.
- Your agent will write up the offer contract. A standard contract will include contingencies for financing and inspections.
- Get a pre-approval letter for the offer amount.
- Include a personalized letter to the seller introducing yourself.
- Sign the offer contract, lead paint disclosure, and sellers disclosure.
- Submit offer and wait for acceptance, counter-offer or rejection. If you receive a counter-offer, you have the option to accept or submit your own counter until you & the seller agree on a price.

****Note:** Highest and best is a common practice in this area; this means they are expecting multiple bids and rather than negotiate back and forth with each bidder they are simply asking for your highest/best offer. No escalation clauses will be entertained. You will not know what other buyers bid and will only have one shot to be the winning bid.

Offer Accepted!

- Now the process begins to get you closed on time.

Attorney Review

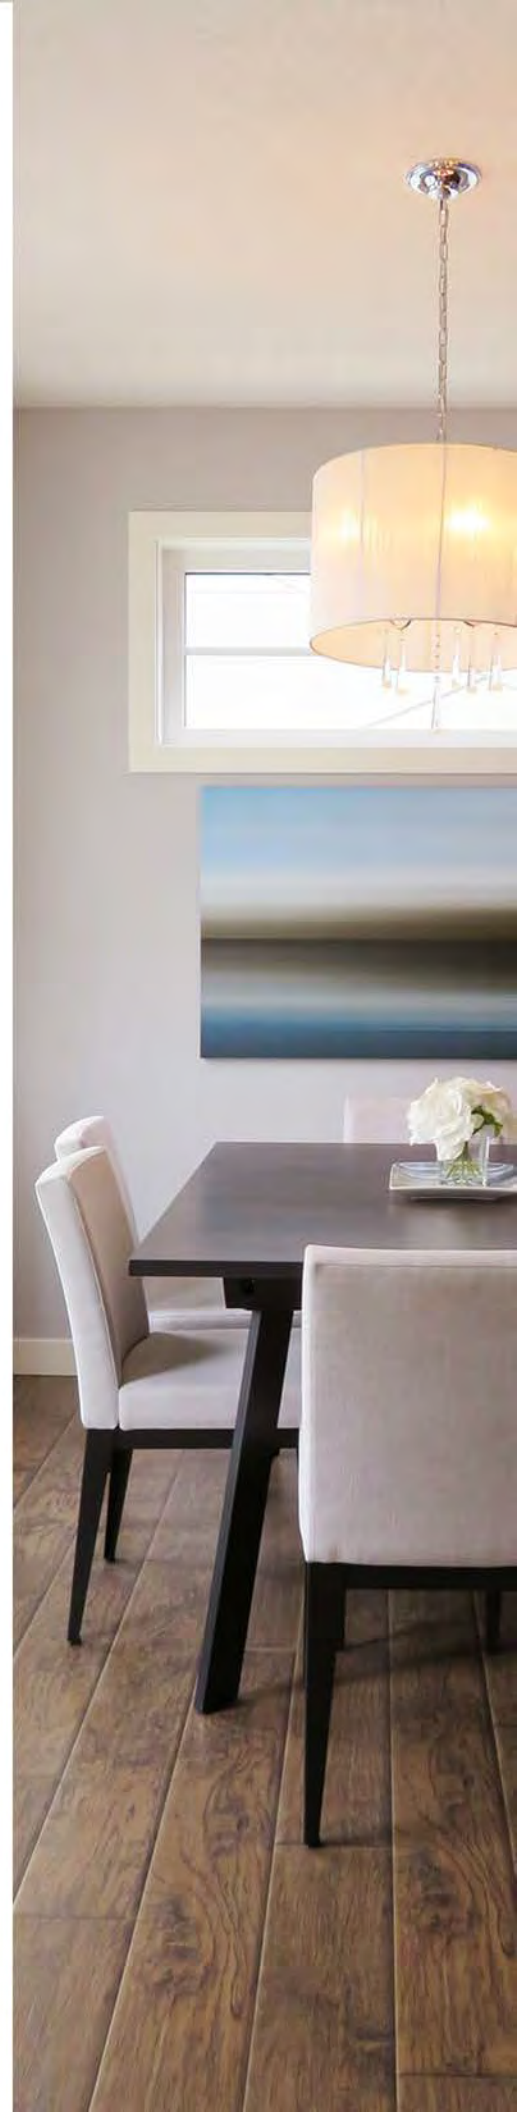

- It is highly recommended that you hire a professional real estate attorney to represent you during the home sale transaction.
- Your attorney will have up to 3 days after the contract is fully signed (by all parties) to review the contract and negotiate any issues.
- If there are many requests to negotiate, AR can last longer than 3 days.
- During this time, the house is marked as being in AR on the mls, but showings are still allowed and offers can be submitted.
- During AR the buyer or seller can cancel at anytime without penalty.
- Notify lender that offer has been accepted.
- Schedule home inspections for after AR concludes.

Under Contract

- Home is no longer allowed to be shown.
- Any additional offers submitted can only be backup offers.
- Lender receives final contract and mortgage process begins.
- Your attorney orders Title search.
- Deposits are due.

Home Inspection

- Must take place between 1 to 14 days after the conclusion of AR.
- General home inspection covers structural, mechanical, safety & visible defects.
- A general home inspector can also conduct Termite and Radon testing for an additional fee.
- Separate but highly recommended inspections include chimney, sewer line, and oil tank sweeps.

Negotiate Inspection Issues

- Review your inspection reports carefully and make a list of your top concerns.
- Consult your agent and attorney to determine best course of action.
- You have the right to ask the seller for a repair or credit for any issues that arises out of the homes inspection, or to cancel the contract.
- If asking for a credit, having a written estimate by a trusted contractor will strengthen your negotiating power.
- All negotiations are handled by the attorneys.

Additional **Deposit**

- This is a deposit that is (typically) due 10 days after AR ends.
- This money is held in a non interest bearing escrow account by the sellers attorney.
- The deposit is applied towards your down payment and returned if the contract is cancelled.
- You determine the amount you want to submit when writing up the offer.
- In this area, intial deposits submitted with offers. A hefty additional desposit gives your offer more weight. Not only does it show the seller that you are serious but it also shows that you have funds readily available.

Mortgage Process

- House appraisal- handled by the agent & lender.
- Get necessary paperwork to lender for mortgage application.
- Provide any additional documentation requested by the underwriter.
- Lender will require you to obtain home owners insurance.
- Once mortgage is approved, the lender will give you a mortgage commitment.
- Lender will give the clear to close once everything is satisfied.

Pre-Closing

- Set up utilities in your name for the closing date. (water, heat, electric, cable, etc)
- Review the commitment document with your attorney at least 2 days before closing to see how funds will be collected and distributed. (closing costs)
- Get a certified checks for the amount you need to bring to closing.

Closing

- Do a walk-through inspection prior to closing with your agent.
- Attend closing, usually at your attorneys office or at the title company.
- Brings necessary checks
- Sign a ton of paperwork.
- Get the keys to your new home.

Congratulations!

HOME TOURING TIPS

Aside from looking at the obvious qualities of a home, make sure to keep an eye out for the following items. These will give you an indication of the homes condition and what possible issues that may come up during the home inspection.

1. Foundation: Look at the base of the walls and the ceilings in each room. Are there obvious cracks or apparent shifts in the foundation? Do the same around the outside.
2. Lot: Does the drainage appear to be away from the house? Are there any obvious soggy areas?
3. Roof: What is the overall condition? When it was last replaced?
4. Exterior: Does the house look like it will need repairs or repainting soon? Are gutters and downspouts firmly attached? Are there loose boards or dangling wires? Is there asbestos in the exterior material, which would require added costs if it needed to be repaired or replaced?
5. Attic: How does the interior of the roof structure look? Are there any signs of leaks?
6. Interior evidence of leaks: Check ceilings and around windows in each room.
7. Basement: Is there dampness? Adequate insulation?
8. Electrical: Do the switches work? Are there any obvious malfunctions? Have the outlets been grounded? Is the panel updated and expandable for additional appliances or a potential remodel?
9. Plumbing: Any unusual noises or malfunctions?
10. Appliances: If these are included, what is the age and condition of the stove, dishwasher or refrigerator?
11. Heating/cooling system: Does it seem to do the job? How old is the furnace? If the system has been converted, are the old systems or tanks still in place?
12. Odour: Does the home smell? Can you detect what it might be and whether it could be fixed?

Respond to any requests for information from your loan officer as soon as possible.

Continue to make all payments on time

CONSIDER **COST** ... NOT **PRICE**

WHAT DOES THIS MEAN AS A BUYER?

Here is a simple demonstration of what the interest rate decrease in the last year has done to the mortgage payment of a home selling for \$400,000.

	MORTGAGE	INTEREST RATE*	PAYMENT (PMI)*
2020	\$400,000	3.03%	\$1,693.00
2019	\$400,000	3.75%	\$1,852.00

DIFFERENCE IN MONTHLY PAYMENT FROM LAST YEARS	\$186.18
--	-----------------

MONTHLY	ANNUALLY	OVER 30 YEARS
\$159	\$1908	\$57,240

• Rates based on Freddi Mac's prediction of rates at time printed

CONSIDER **COST** ... NOT **PRICE**

CONSIDER COSTS, NOT JUST PRICE

As a seller, you will be most concerned with “short term price” - where home values are headed over the next six months.

As a buyer, however, you must not be concerned with price, but instead the ‘long term cost’ of the home.

Interest rates are always changing and they may increase over the next year. That’s why it’s important to take advantage of the low interest rates today.

FINANCING **YOUR DREAMS**

DOWN PAYMENT REQUIREMENTS

Most loans today require a down payment of between 3.5% up to 20% or higher, depending on the type and terms of the loan. If you are able to come up with a 20-25% down payment, you may be eligible to take advantage of lower interest rates and possibly eliminate mortgage insurance.

CLOSING COSTS

You will be required to pay fees for loan processing and other closing costs. These fees must be paid in full at the final settlement, unless you are able to include them in your financing. Typically, total closing costs will range between 1-3% of your mortgage loan.

NUMBERS TO **KNOW**

PURCHASE AMOUNT

This is the amount you have agreed, with the seller, to pay for the home. It is inclusive of the earnest money and down payment you have offered. It is not inclusive of your closing costs.

EARNEST MONEY

When you make an offer in writing you will also pay a deposit called earnest money deposit, usually 1-3% of the purchase price. Paid by the buyer, earnest money is a portion of the purchase amount that is held by the escrow company as a good faith from the buyer to the seller. When the transaction closes, the earnest money is transferred to the seller as a portion of the original purchase amount. It is not an additional fee.

DOWN PAYMENT

The down payment is a portion of the purchase price that the buyer is paying in cash. Down payments can range between 3.5% and 100% and each buyer determines the best scenario for their particular purchase.

CLOSING COSTS

Closing costs are not part of the purchase amount, but rather charges associated with the buyers loan, the transaction itself and any pre-payment required by the lender such as taxes, insurance and HOA dues. Closing costs are an assortment of fees based on the transaction between the seller and the buyer of a home. These fees are collected by the escrow company at the end of a transaction.

WHO PAYS CLOSING COSTS?

Some closing costs, such as the fee the escrow company charges, are split between the buyer and the seller. Many of the closing costs are related the mortgage and are therefore the buyer's responsibility. One of the largest costs associated with the closing costs is the loan origination fee. This is the fee your lender is charging you to provide the loan. The fee varies from lender to lender and should be considered when shopping for a good loan. You can expect to pay 1-3% of the purchase price in closing costs.

Overall, our purchase was fast, easy and efficient. She was very patient and generous with her time. No matter what time or day, she was very responsive and we always saw each home quickly. My husband and I settled on a house and before the end of the night, Irma had our offer ready to go. Knowledge was key and we appreciate all of her honest and fair opinions. We couldn’t have had a better experience and we encourage others to contact Irma for assistance.” -Shaquirah & Courtney S.- Stewartsville

Irma was very knowledgeable about the areas and had good insight of what was more or less desirable about an area. She was upfront and honest about houses we saw, never pushed us to go above our price limits and brought a lot to the table when taking us on house tours. The other challenge was buying a house during the pandemic. Irma had masks, gloves and booties for us for each day of house tours we did. She was incredibly responsive and she made us feel like we were her only clients. In the end we found an amazing deal on a house, Irma gave us good advice on how to move forward and we ended up getting a house we're very happy to live in” - Dan L. - West Orange

“Irma truly was our guide during the whole house buying process. We were very green going in and she was very patient. We saw many many houses over the course of 6 months in Montclair, Glen Ridge, West Orange, South Orange, Verona and Forest Hills. As our budget and wants/needs evolved, Irma was there every step of the way. She answered all of our many questions in a timely manner and wouldn't hesitate to go above and beyond. For example, we were deciding whether to bid on a house where we didn't see the garage in person. Irma went back to the house and took pictures for us so we could have an accurate idea of what it looked like. Throughout the process, I really felt like Irma had our best interests at heart, regardless of our budget and sometimes unrealistic expectations. She has extensive market knowledge and helped us negotiate our way through bidding. Not only was she considerate of our needs but she made alot of recommendations that we didn't think of. In fact, the house we ended up LOVING and buying is a house I originally didn't want to see but Irma recommended it. Because of her, we have our dream home. I'm so happy we had Irma as our agent and I would gladly recommend her. I would absolutely use her again. She really is great!?”
