

Address: 110 Wildlife Road, Belmont, NC

1. What impressed you the most about your home when you bought it?
 - What impressed us was that we were on a dead-end street and had privacy before the neighborhood was built up.
 - Also, Duke Energy did not build any houses across the street from us.

2. What do you like best about your home?
 - I liked the fact that it was big enough for 2 people, then 3 when we had our first and only child.

3. What are some of the best features of your home?
 - I liked the full acre we had with this house.
 - We had a large lot with plenty of trees we chose to plant.
 - Some of the best features were the carport, and utility room outside adjoining the house.

4. What is great about your neighborhood?
 - We had a nice, quiet neighborhood, where people were friendly enough, but at the same time respected our wishes to be left alone.
 - Also, it was quiet.

5. Please tell us about any upgrades/remodeling that you have done to your home.
 - We added an extra room in the back and turned it into a den.
 - We had Champion windows in Charlotte, NC upgrade the room in the back with beautiful windows all around, called a "Euro" room. because it was private also.
 - With windows only at the very back of the house.
 - Also, I loved our garage we built on for 2 cars.
