

Residential Renewable Energy Solutions Third Party Ownership Customer Disclosure

CUSTOMER INFORMATION		SYSTEM OWNER CONTACT INFORMATION	
Customer Name: Khaled Abdelgawad	Company: IGS Solar, LLC		
Name on Electric Bill: Khaled Abdelgawad	Street Address: 6100 Emerald Parkway		
Site Address: 32 Salmon Run	City, State, Zip: Dublin, Ohio 43016		
City, State, Zip: East Hampton, CT 06424	Phone: 888-974-0114		
Phone:	Email: solarsupport@igs.com		
Email:			
INSTALLER CONTACT INFORMATION		PRIMARY SERVICE CONTACT INFORMATION	
Company: Momentum Solar	Company: IGS Solar, LLC		
Street Address: 3096 Hamilton Blvd	Street Address: 6100 Emerald Parkway		
City, State, Zip: South Plainfield, NJ 07080	City, State, Zip: Dublin, Ohio 43016		
Phone: (888) MOMENTUM	Phone: 888-974-0114		
Email: CustomerSupport@MomentumSolar.com	Email: solarsupport@igs.com		
CONTRACT, COST, AND ESTIMATED PERFORMANCE INFORMATION			
Incentive Rates: Buy-All: \$0.3189/kWh Netting: Retail rate plus \$0.000/kWh Which Structure Applying For? <input type="checkbox"/> Buy-All or <input checked="" type="checkbox"/> Netting			
System Size (kW DC): 11.89	System Size (kW AC): 9.3		
Contract Effective Date: First day of the month after receiving PTO	Contract End Date: 25 Years from Contract Effective Date		
Option to Renew	<input checked="" type="checkbox"/> Yes or <input type="checkbox"/> No	Option to Buyout	<input checked="" type="checkbox"/> Yes or <input type="checkbox"/> No
Starting Rate PPA/Lease Rate (Select one)		\$ _____ /kWh	\$235.36 /month
Lease down payment and/or pre-payment amount		\$ 0.00	
Contract Rate Increase Frequency		<input type="checkbox"/> Monthly or <input checked="" type="checkbox"/> Annually or <input type="checkbox"/> N/A	
Amount of Rate Increase		2.9 %	
Has a shading analysis been completed for the property?		<input checked="" type="checkbox"/> Yes or <input type="checkbox"/> No	
How much production is expected to be lost due to shading? (%):		9.86	
Estimated Year One Production (kWh):		13924	
Estimated Year One Payments (\$):		\$ 2824.32	
Estimated Year One Customer Net Savings (\$):		\$ 1188.58	
Starting utility rate used to estimate net year one savings:		\$ 0.2882 /kWh	
Escalator rate used to estimate net year one savings:		0 %	
Is the contract transferrable?		<input checked="" type="checkbox"/> Yes or <input type="checkbox"/> No	
Where in the contract is the warranty information located?		Please refer to Exhibit 2 - Limited Warranty.	
Are all warranties transferrable?		<input checked="" type="checkbox"/> Yes or <input type="checkbox"/> No	
OTHER INFORMATION			
Does the system installation contract conform to the requirements of the Connecticut Home Improvement Contractor Law?*		<input checked="" type="checkbox"/> Yes or <input type="checkbox"/> No	
Describe any system performance or electricity production guarantees: Contract guarantees 85% of estimated production annually. See Exhibit 3 for additional details.			
Describe opt-out or early termination terms: Customer may transfer the contract to another homeowner; prepay at a discounted rate; or purchase the system starting on the 5-year anniversary of the interconnection date.			
Must the customer continue to make payments in the event of an extended system shutdown?		<input checked="" type="checkbox"/> Yes or <input type="checkbox"/> No	

**Rate based upon Eversource Energy's currently applicable Retail Rate inclusive of Standard Service energy supply charges. Assumes customer is served under Rate 1 Regular Residential Rate. Rate effective 7/1/24, but subject to change at any time.*

Will a filing be recorded in the land records of the customer's municipality pursuant to the contract for this system?	<input type="checkbox"/> Yes or <input checked="" type="checkbox"/> No																		
Describe any protections for the customer in the event that the service provider goes out of business: Once the solar array is fully constructed, no material performance is remaining for the service provider. Moreover, if an insolvency proceeding were initiated, any remaining operations and maintenance obligations would be assumed and performed by the purchase of provider's assets.																			
Has the condition of the roof and the potential for removing and reinstalling the array in the event that roof repair or replacement is needed been discussed with the customer?	<input checked="" type="checkbox"/> Yes or <input type="checkbox"/> No																		
The Customer of Record acknowledges review of the Residential Renewable Energy Solutions customer information webpage, including historical electric rate and system cost information: see Program Data on www.eversource.com/rres / Historical Cost and Rate Data - UI (ui.net.com)	<div style="display: flex; align-items: center;"> <div style="border: 1px solid black; padding: 2px; margin-right: 10px;"> <small>Initial</small>  </div> Yes (or initial) </div>

*Homeowners have certain rights and protections under the Connecticut Home Improvement Contractor Law. To learn more about the law visit and home improvement contractor licensing visit <https://portal.ct.gov/dcp/Trade-Practices-Division/Home-Improvement-for-Consumers>.

**Complete remaining empty fields to assign responsibility.

***The Utility will request the customer-contractor contract/agreement with the first project application received from each installer annually.

NOTE: A Renewable Energy Certificate (REC) represents the Environmental Attributes associated with one megawatt-hour of renewable energy as defined by Connecticut law. RECs generated by the facilities participating in Residential Renewable Energy Solutions are transferred to the utility company in exchange for the incentive payments made to the facility owner under the program. Therefore, while you cannot claim that you are using the renewable power generated by the facility, your lease of a renewable energy system does support renewable development in Connecticut and increase the amount of solar energy consumed by all electric ratepayers in the State.

NOTE: The Customer of Record authorizes that the Applicant and/or Installer may view information on the customer's energy assessment participation and historical annual electricity usage.

Program Fee Notice: All applicants to Residential Renewable Energy Solutions are required to pay a \$129.00 application fees to support the administrative costs of the program. Additionally, customers will be charged fees if and when they make changes to the payment beneficiary information. You may or may not be responsible for these fees depending on your contract with your Installer.

I, Khaled Abdelgawad, hereby confirm that I have received and understand the information above, reviewed the Residential Renewable Energy Solutions Program Manual and understand the information, including the Program Terms and Conditions. I further confirm that I have had a chance to ask questions of my Installer and have received sufficient answers, if applicable.
