What this means for builders

PRICING

New semi-detached / duplex specs are asking about **$373/sq ft**, in line with the **$370/sq ft** new homes have sold for. Pricing is not the main obstacle here; presentation and incentives decide which spec sells first.

PRODUCT

Detached – front garage is the tightest product. 14 sold in 12 months with 3 listed now (2.6 months of supply). If your plans include detached product, now is a good time to bring one to market.

SEMI-DETACHED / DUPLEX SUPPLY

Semi-detached / duplex has **13.2 months of supply**: 11 listed against 10 sales in a year. Specs in this product need a sharper price or a stronger incentive to stand out.

THE UNDER-$600K BAND

The under-$600K band has **9 months of supply**: 10 homes for sale against 14 sales in a year. Specs priced here compete hardest; price toward the band below or add value buyers can see.

TIMING

Quarterly sales over the past year ran 8 → 13 → 8 → 3. Winter is the slowest stretch; specs finishing over the winter should be listed and photographed before possession so they're ready for the spring market.

Your builder specialist

Cam Johnson founded and ran a construction company working on building and land development projects before he moved into real estate. He looks at a spec the way a builder does: the product, the lot, what it costs to carry and what it will take to move it. That's why this brief is built around the numbers builders use, not the ones buyers see. Cam works one-on-one with builders on spec pricing, MLS® marketing, showings and weekly feedback, and our team can sell a move-up buyer's current home on a coordinated timeline so their new-home purchase doesn't stall.
